WATER PURIFICATION KIT

\$120 **4X MATCH**

For communities impacted by droughts and floods and unable to drill wells, water contamination is a big problem that needs to be dealt with – fast. This innovative gift does just that by producing 10 litres of clean drinking water within 4–6 hours. Just fill the portable, solar-powered kit with untreated water and expose it to natural UV light to filter out dirt and destroy potentially-deadly bacteria. Paired with training at remote schools, this gift will boost attendance, alongside students' health, distilling out a fresh source of hope.

“We enjoy drinking water treated from the kit. We save time and money no longer using firewood to boil dirty water.”

*Florence, 13, received one of more than 2,000 **water purification kits**, boosting her family's income while preventing deadly illness.*

Help thousands of people have access to clean, reliable water systems and sanitation facilities and give them the training and skills needed to protect their water supply and ensure it will be there for future generations.

BIRTH CERTIFICATE

\$27 4X MATCH

A birth certificate is an open door, a bridge and a shield, but many go without being registered. It provides access to essential human rights, and bestows an identity, the ability to vote and a say in shaping the world. Particularly for girls, it offers special protection against the perils of child marriage, child trafficking and forced or exploitative labour.

LEADERSHIP TRAINING FOR GIRLS

\$3,200 **4X MATCH**

A gender equal future starts with girls' empowerment today. Give the gift of leadership training, mentorship and opportunities for girls who live in diverse contexts within developing communities around the world. It will help girls build their confidence, self-esteem and life skills so that they can make their own life choices, thrive and lead the way for the next generation. You'll support important grassroots initiatives that ladder up to great transformations and help form youth-led rights groups and movements; open platforms for safe and effective advocacy; support officially-recognized student parliaments and back local women's organizations who lead concrete, on-the-ground changes for women and girls. You'll help establish a network of community members, including male allies, and local leaders that can champion and protect girls' rights with girls in the driver's seat, taking their own chosen paths. And, you'll provide access to skill-building workshops and financial literacy training, so young women can participate in the labour force and achieve economic independence. This gift doesn't just open doors for girls, it helps them break down entire walls, unleashing their inherent power and building the foundations for a gender-equal future.

SOLAR-POWERED HUB

\$5,500 **5X MATCH**

In today's world, living without energy access in rural regions can limit educational opportunities and employment potential. But with a little sunshine and a drive to power innovative change, you can energize a solar success story for rural entrepreneurs. This ingenious gift establishes solar-powered kiosks for isolated communities to access electricity to jump-start businesses, and critical information-sharing technology. Picture a stall covered in solar panels and outfitted with charging stations, outlets, internet access and laptops – emitting enough energy to operate even a mobile mass food processing machine, making huge, local opportunities suddenly available. Women's groups will manage the kiosks, which will in-turn support other women-led businesses. This gift also provides essential business and financial literacy training for motivated female entrepreneurs, strengthening their skillsets for shining successes. Gender equality training for male allies and other supports will cultivate a warm and welcoming community where women-owned businesses can grow. These brilliant kiosks will bring a new meaning to connectedness as they become hubs for community meetings, business trainings, and bright futures.

HELP END GLOBAL HUNGER

\$2,500 **5X MATCH**

Hunger: this quiet killer is today's top worldwide health risk. The need is simple, but the scale is enormous – and you can help overcome it. This gift will help nourish entire populations in some of the scarcest, climate-challenged parts of the planet, like those that are affected by drought. It will provide at-risk girls, women and their families with immediate food distributions, along with opportunities to harvest their own sustainable resources, including agricultural training and supplies, like resilient seeds. This gift is the best way to help ensure every child has access to enough food, not only for a day, but for a full, healthy lifetime.

FIGHT HEALTH STIGMA

\$7,500 8X MATCH

What if seeking lifesaving health care meant facing discrimination, harassment and even violence? Millions of women, girls and members of the LGBTQ+ community are discouraged from accessing health care, or even denied treatment, because of stigma regarding their gender, sexual orientation or health status. This truly transformative gift will challenge the root causes of these stigmas by helping to dispel misinformation and change mindsets at individual, community and institutional levels. Specialized sensitivity trainings for health workers and community leaders will contribute to ensuring that everyone can assert their right to health care. Raising awareness through informative campaigns and guided group discussions will foster inclusive, compassionate communities. Workshops will help empower marginalized individuals to safely access and advocate for their rights, and community centres will connect them with medical, legal and psychological services. Supporting efforts to advocate for policy reform at the government level will contribute to sustainable, tangible change. With this gift, you will help transform health systems to become more inclusive to all so every person can survive and thrive as their authentic selves.

INCLUSIVE SCHOOLS

\$10,000 5X MATCH

Children with disabilities represent one of the largest groups of out-of-school children. This gift mobilizes every level of education – from governments to teachers – to better identify, respond to, and support children of every ability. It works extensively to train teachers and community members to not only support children with diverse requirements, but truly value them – respecting every child and equally protecting their rights. You will also help provide these children with learning materials designed to fit their unique needs and help adapt and establish curriculums to accommodate varied abilities, as well as constructing infrastructure like ramps to make schools more accessible. To foster an inclusive community, psychosocial support sessions will bring fun and play to groups of children and youth who may not have had the opportunity to socialize with their peers. It's time to set a new standard for what defines basic education, lift barriers that hold anyone back, and pave an open path to learning for all children

EDUCATION

Access to information is power, but it has not been shared evenly in our world – especially with girls. The global pandemic has widened these inequalities, but we've adapted to bridge this gap with new, inclusive learning solutions. Now is the time to shift long-time imbalances for good – and it all starts with education.

Don't let children slip further back, due to COVID-19 closures: help them rewrite the future, for themselves.
